

Christo Puthanpurackal – AI / RAG Portfolio

Knowledge Base

Professional Summary

Junior AI Engineer at Urbanex Analytics Pvt Ltd with a Computer Science background and experience in Python, AI, Machine Learning, Data Science, and real-world projects. Interested in intelligent systems, computer vision, and practical AI applications.

Current Role

Junior AI Engineer – Urbanex Analytics Pvt Ltd
Working on AI solutions, data preprocessing, model development and ML workflows.

Current Project

Government-based Violence Detection project using YOLO. Responsibilities include dataset collection, data preparation and model training support.

Education

B.Tech Computer Science & Technology (KTU) – CGPA: 6.72
Data Science & AI Course – IPSR

Internships

Python Developer Internship (3 months): Built business management software similar to Vyapar using Python and Flask.
Data Science & AI Internship – IPSR Solutions.

Skills

Python, SQL, TensorFlow, Keras, Flask, FastAPI, NLP, YOLO, Machine Learning, Computer Vision, Pandas, NumPy, MySQL

Projects

AI Medical Assistant using RAG
Brain Tumor & Alzheimer's Detection
Stroke Prediction System
Autism Prediction
Social Network Prediction
Travel & Tourism Management

Strengths

Strong determination
Quick learner
Problem-solving mindset

Interests

Computer Vision, Intelligent Detection Systems, AI automation, real-world AI applications, driving and technology exploration.

Academic Mark Lists

SSLC Subject	Grade
Malayalam	A+
English	A+
Hindi	A+
Social Science	B+
Physics	A+
Chemistry	A+
Biology	A+
Mathematics	B+
Information Technology	A+

Plus Two Subject	Marks/Grade
English	145 (B+)
Hindi	180 (A+)
Physics	123 (B)
Chemistry	135 (B)
Biology	139 (B)
Mathematics	106 (C+)
Total	828

RAG Question & Answer Knowledge Base

Q: Why did you choose Computer Science?

A: I was curious about technology and how software works. I liked creating solutions for real-world problems.

Q: Why AI/Data Science?

A: AI and Data Science attracted me because of their practical applications and machine learning projects.

Q: What motivates you professionally?

A: Continuous learning, solving problems and building valuable solutions motivate me.

Q: What technologies do you use at work?

A: Python, AI/ML tools and YOLO for object detection.

Q: Biggest internship challenge?

A: Converting client requirements into practical software features.

Q: How do you learn new technologies?

A: I combine theory with hands-on projects and experimentation.

Q: What makes you different?

A: Strong determination and continuous improvement through practical learning.

Q: Why should someone hire you?

A: I adapt quickly, work hard and continuously improve my skills.

Q: Achievement you're proud of?

A: Contributing to a real-world government-based AI violence detection project.
